Camaloch's golf course is a par 72 golf course measuring 6,237 yards from the back tees. The course has a slope of 126 and rating of 70.9. The golf course is well known for having the very best greens in the area. Very smooth, very consistent and pretty quick as compared to others in the area.

Whether considering a place to golf for the day, or to live full time, it should be noted that Camaloch is located well within the Puget Sound "Sun Belt" on Camano Island, and receives about 1/2 the annual rainfall of the greater Puget Sound area. And remember, we're less than 15 minutes from I-5 and you don't need to take a ferry to get here.
