Fire Chief's Report

- 1) Paramedic hiring update – Interest is starting to ramp up. We are looking at Paramedic only candidates and we have at least one who may work out for us.
- 2) Reserve engine – The Sabre (Eng 1-32) is currently out of service and Jay's feeling is that it will not be possible to get it to go back in service. SCC has said that they will take it. The overall problem is that we have a lot of vehicles but we can't use them because of age and condition.
- 3) Active Shooter incidents – Chief Hartin (CWFPD) and I are developing a protocol to be used by Island County Fire Departments in the event of an active shooter incident. What we actually implement for CIFR is going to be a little different due to the fact that LE will be predominantly from Snohomish County and WSP.
- 4) Chief OOT Feb 28th-March 3rd
