Fire Chief's Report

Stats – We are still working on completing March reports after the Spillman upgrade issues so I won't be able to provide a response time analysis for March.

Community Presentations – We will be presenting along with North County at a Health Fair this weekend at the Stanwood Senior Center on the opioid issue in this area. Unfortunately we won't be at the Garden Show this weekend at the Camano Center.

EMS week – Just an update on our plans for EMS week which is the 21st through the 25th of May. We will be at the IGA once again in the parking lot providing compression only CPR training as well as handing out EMI tubes. I will be going over our OT budget to see about bringing in some off duty personnel to help out.

Training – Chief Schick attended a Senior Officials Workshop for All-Hazards Preparedness class on 3/29. It was interesting to be in a room of elected officials, I believe all of the mayors of the various cities on Whidbey were present, and talk about responding to a major emergency.

CrewSense – Administrative staff were introduced to the CrewSense program by Brandi. All personnel are going to start using this for tracking time worked and time off.

FF Retirement – Vern Matlick's finished his last shift on the morning of April 6th, I did stop by to thank him for his years of service. He has a lot of trips planned over the next few months but as soon as he gets back we will plan on having some sort of recognition ceremony.
