Fire Chief's Report

Stats – We are currently tied with 2015 for most calls in a year. Christmas Eve certainly helped.

Christmas Eve – We were extremely busy, not just with car accidents but there were a lot of sick people and it was tough getting to everyone. I even had to put chains on my truck and get a patient. We did have one accident with an Expedition. Minor damage when it slid off the road. Mike Waite and St 5 personnel did a great job on the south end with some very bad road conditions and C Shift was awesome. I also have to thank ICSO for helping to bring patients to us.

Christmas Day structure fire – We had a barn fire on Utsalady Road in the afternoon of Christmas Day. A great effort by everyone including NCRFA.

Drone program – I saw the video and it was very well done.
